

8 An energy company plans to build a new power station.

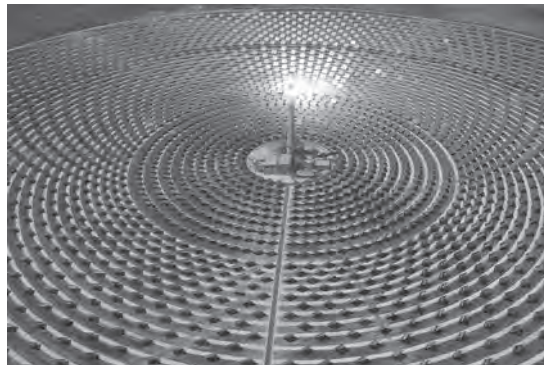

The company must decide between two renewable energy projects, a geothermal power station or a solar power station.

Geothermal power station

(Author: Gretar Ívarsson, geologist at Nesjavellir, 2006)

Solar power station

(Author: Torresol Energy, 2011)

Explain how the location and the climate might affect the type of power station that the company chooses.
