DO NOT WRITE IN THIS AREA

- (a) The toaster has a power of 1800W when operating at a voltage of 230V.

(i) State the equation linking power, current and voltage.

(1)

(ii) Show that the current in the toaster is about 8 A.

(2)

(iii) Which fuse rating would be suitable for the toaster?

(1)

- ☐ A 1 A
- ☐ B 3 A
- ☐ C 7 A
- ☐ D 13 A

(b) The toaster uses mains electricity.

Mains electricity provides alternating current.

(i) Describe the difference between alternating current (a.c.) and direct current (d.c.).  
(2)

(ii) State a source of direct current.  
(1)
