2		9n – 7 = 214			M1 or for working out the 24 th and 25 th terms																								
			No and n = 24.55... or 9n = 221 and 221 is not a multiple of 9 or 24th term = 209, 25th term = 218	2	A1 oe (e.g. No with either 24.5 or 24.6 (or better)) – for A1 must see ‘No’ + appropriate values A0 if No and $n = \frac{221}{9}$ only For A1 it must be explicitly clear that $n = \frac{221}{9}$ is not an integer e.g. No and $n = \frac{221}{9}$ is not an integer/whole number is A1
