(a) The television receives infrared waves and radio waves.

It emits light waves and sound waves.

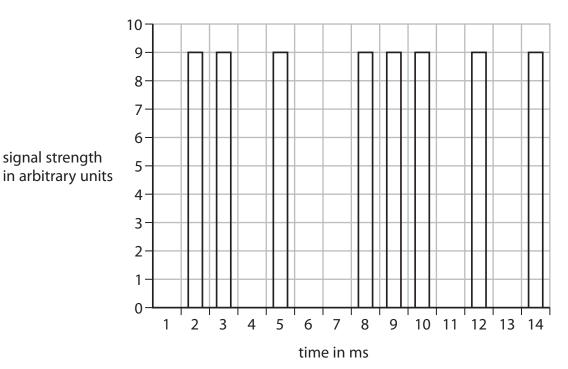

Which type of wave has the highest frequency?

(1)

- A infrared
- light
- radio
- **D** sound

signal strength

(b) The graph shows how the strength of the infrared signal from the remote control varies with time.

(i) Explain how the graph shows that the infrared signal is digital.

(1)

(ii) Suggest two ways that this signal could be made to carry more information.

(2)

(Total for Question 2 = 4 marks)
